

When using Google Meet from Google classroom on an iPad/phone, you will not see the link in the banner. Here is how your students can join the session.

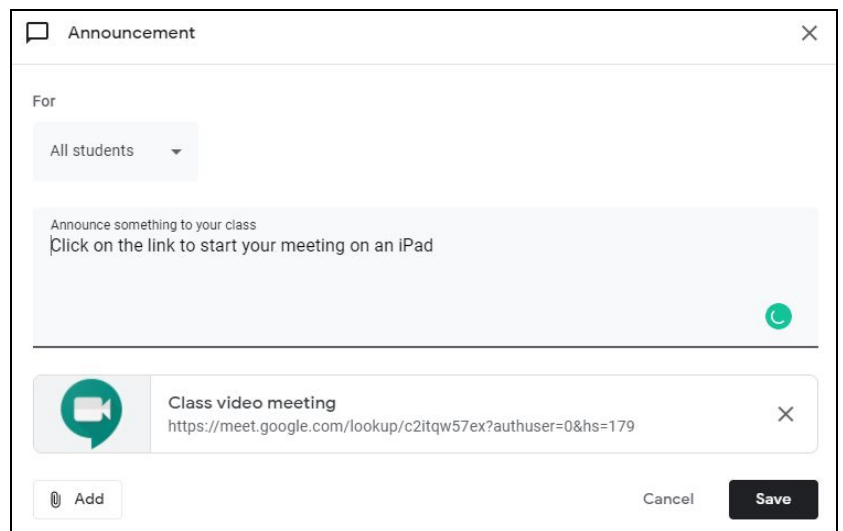

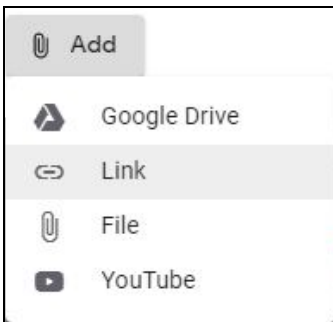

TEACHER

1. On your Classroom page, go to settings and copy the google meet link.

2. Create an announcement click **Add a Link** to the Google Meet link you just copied. Here, you can give instructions and even only post it to certain students. Students who are using computers and chromebooks can still click on your original Google Meet link in the banner of your class (they are both the same).

STUDENTS

1. Download the Google Classroom and Meet app.
2. Click on the Classroom App and make sure you're signed in.
3. Click on the Announcement.
4. Click on the Google Meet link.
5. You will either be forced to open up the Google Meet app or it may just connect via your Gmail. You will need to allow your device to use the audio and video. Click Join.
